

## Product Introduction

### Medium Duty Self Close™ Slide

Kitchener, ON, Canada – CompX Precision Slides is pleased to introduce two new products in the self closing family of drawer slides: the DY3618 and DY4678.

The Medium Duty Self Close™ feature has a 1.0” closing stroke and holds the drawer closed with an effective detent. The DY3618 and DY4678 are perfect for 75lb to 100lb load applications where space is tight, but premium slide action is sought after. Being compact and durable slides, these products are a great choice for kitchen cabinetry, office furniture, and warming drawer applications.

Both models are available with features such as lever disconnect and 32mm hole pattern and are perfect for applications such as kitchen cabinets or pedestal drawers. The DY3618 and DY4678 joins the 3800 series self close slide, which has a load rating of 200lb.

For more information on the Medium Duty Self Close™ Slide, call 866-521-8028, or email us at [precision.slides@compX.com](mailto:precision.slides@compX.com).
